

PURE COLLAGEN MASK

Skin Concern:

- Sensitive and irritated skin
- Lack of moisture
- Fine lines and wrinkles

Benefits:

- Skin Regeneration
- Anti wrinkle efficacy
- Hydration boost
- After sun recovery
- Cosmetic procedures (recovery after microdermabrasion, microneedling, chemical peeling etc.)

Composition:

- 92% native collagen
- Native Collagen fibers from a three-dimensional network. The highly concentrated collagen has high water-binding capacity, thus ensuring an intensive moisture transfer to the skin.
- Collagen molecules strengthen the skin's moisture-binding capacity and support the smoothing of wrinkles
- Collagen Peptides act as signal substances in skin recovery, influencing tissue regeneration and cell metabolism

INCI:

Collagen - Hydrogenated Polysobutene - PEG-15 Stearyl Ether - PEG-40 Sorbitan Peroleate - BHT

Scientific Data:

- 15% Wrinkle depth reduction (PRIMOS')
- + 60% Increase in hydration (Corneometry')
- 28% Reduction of irritations (Chromometry)

Native, insoluble collagen fibers in SAIAN Pure Collagen Masks form a three-dimensional network. This corresponds to the collagen structure of the human skin and is thus well-tolerated. The highly concentrated collagen has high water-binding capacity, thus ensuring an intensive moisture transfer to the skin.
